Refurbishment of the L200 in two stages.

As the road surface was last renovated several years ago, new asphalt paving was installed along the L200 in two stages, over a distance of 4.19 kilometres. The first section was renovated in June 2016, the second in July 2017. Thanks to the rapid implementation by Nägele Hoch- und Tiefbau, traffic disruptions on this important route were kept to a minimum. After only a very short time, the L200 Bregenzerwaldstraße was once again open for use without any traffic disruptions.

Impressions

Image notes

1

A summer's night in Mellau.

Nägele Hoch- und Tiefbau is frequently hard at work late at night. Suitable lighting is provided for.
